## Experience

### Mobile Developer @ Octi

09/2017 - Present

An AR messaging platform. Heavy use of interactive animations, ARKit and proprietary CV tech, and an in-house realtime graphics rendering system. Also AVFoundation, robust networking stack, UX and prototyping, SceneKit, Firebase, RESTful backend, various analytics solutions, push notifications - basically it was a big app. Took lead role for Octi 2.0 including complete redesign and major refactor of the project.

### Lead Developer @ MusicMind

02/2017 - 09/2017

A music and video messaging app with novel AI-powered features. Lots of Core Graphics and AV Foundation using Swift on the iOS side. Firebase and Node.js on the backend.

### Founder @ v1 Prototyping

11/2016 - 05/2017

Hardware and software rapid prototyping. Projects involving CAD modeling, Arduino, and iOS. I managed the company, and acted as lead engineer.

### App Developer @ H2 Wellness

04/2016 - 02/2017

Worked with team on a major rebuild of the H2Fit for iOS. Then worked with the product design team doing rapid prototyping / proof of concept work for DFH thrive. Technologies include Objective-C, Swift, SQLite, ReactiveCocoa, and Push Notifications.

### App Developer @ Crates

07/2015 - 02/2016

A time delayed messaging app for iOS. Basic social networking feature set. Built with Swift - talking to Node.js backend.

### Engineering Assistant @ Kinetic Die Casting

2014 - 2015

Built sales software and a document control system. Managed and performed scheduling, standards compliance, process documentation, CAD, quality control, job quoting, and machining.

### Marketing @ Solomon Saltsman & Jamieson

2011 - 2013

Designed and built websites (JavaScript, HTML5/CSS3, PHP), managed ad campaigns, and copy writing.

## Projects

---

### Life Calendar

2017

A data visualization app to help you see and plan a lifetime - not just the next few weeks. Coming soon to the Mac App Store.

### The Paper Platformer

2010

2D side-scroller game for iOS. Built with Objective-C and the GameSalad engine. No longer on the App Store.

### The Tech Troop

2009

A tech news site run with friends. I built the website and acted as head editor. We published articles covering iOS and other burgeoning technologies for a niche following of early adopters and Apple enthusiasts.

## Education

---

### Glendale Community College, CA

2010 - 2011

### Los Angeles Mission College, CA

2008 - 2011
